The Mint of the United States,
at
Philadelphia, 10. June 1879

Sir.

Mr. Branson wished to know whether he would be allowed to put some 30 tons of his selected Coal, in our Cellar. His coal has been so superior to anything that we have had for years that I would favor him most cheerfully. I will see to it that every ton is observed as it is brought to the Mint, & any inferior coal rejected.

Respectfully yours
